MS 269

Sir

Watertown Jan 18th 1776

I was much disappointed in not hearing from you from Worcester, in answer to mine by Mr Fenno — if you thought I had charg'd too high for my Wages while in your Service should have been glad to have known it. I acknowledge the Sum charg'd was never agreed on nor was any other Sum. but that was a Sum mentioned by me & not objected to by you. and I charg'd for no longer time than in your Service and you must be sensible Sir that a Sum charged was less than a family could be supported on —

My going in to Boston & getting out your Books & other Effects which were got out prevented my bringing out my own. I would not by this suggest that I repent doing what I did. I am heartily glad I could serve your Interest so far as all my own Effects were but of small Value in Comparison of what I bro't out for you. but they would have been considerable to me Now & prevented the buying of many Articles which I have been necessitated to do,

If you think my Acct equitable should be exceed'd glad of the Coll.r which am much in Want of to discharge Debts I have been obliged to contract for y.e Support of my Family before I was in the way of getting any thing — There lays in the Secretarys Office a Warr.t on the Treas.r for thirty pounds drawn in your fav.r last Aug.t that I could receive here if I had your order therefor — I am sorry to call

of

of your Attention from the more important affairs in which you are Engaged.. but hope to be favd. with a Line from you which will verry much oblidge

I. Your Most Obed. Hble Servt.

John Lowell

My best Respects to your good Lady
